

B I S T A N N U A L ASTOUNDING INVENTIONS®

The Pitch Video Info

Video Details:

The Pitch Video is replacing the Display Board. Students must still complete an *Inventor's Notebook/Log* and a Model/Prototype. Their video should answer the same questions listed in the *Inventor's Notebook Key Points* (See full details on *Astounding Invention® Student Rule Sheet*).

Inventor's Notebook Key Points

- Student name and school
- Name of the invention
- What need or problem does the invention attempt to solve?
- How does the invention work and how is the invention made?
- What materials were used in its construction?
- Research. What research did the student conduct to make sure their idea was new?
- Who helped the student with this invention?

The inventor may show the materials used, the prototype, how it works and who helped them with the invention. The inventor's face does not need to appear in the video. Please encourage the student to draft an outline of what they want to say before recording the video. Students should speak clearly, loudly and slowly, and be creative and get the viewer excited about their invention. We ask that they keep the videos to about 2 minutes and less than 3 minutes long.

Video Submission

For IVC judging students DO NOT need to bring a device for the judge to view their video. All video submissions will be compiled into one folder for judges to view. IVC will be providing the technology needed for this. If parents wish to bring a device for their student, they may do so however IVC and the school districts are not responsible for any damage or lost to the device.

To submit your video for the school fair:

Upload the video to YouTube or Google Drive. Share the link with panizebrahimi@gmail.com

If going to IVC, the IUSD fair:

Upload the video to YouTube or Google Drive. Share the link directly with the STEM department at sandramadrid@iusd.org

Registration/Check-in Night: Friday, January 26th at IVC Gym from 3:00 PM - 6:30 PM

Video submission students must still come to the Friday night check-in. Inventors will receive their name tag, IVC certificate, IVC t-shirt, and be given a spot on the gym floor to place their notebooks.

Any questions contact the STEM department at (949) 936-5057 or at sandramadrid@iusd.org
